

*If you care about human rights,
then make the choice ...*

Don't buy HP products

**HP profits from Israel's
human rights abuses of
Palestinians.**

**If you want to support justice
for Palestinians:**

Don't buy HP ink cartridges

Don't buy HP laptops

Don't buy HP scanners

Don't buy HP printers

Boycott

the technology behind Israel's war machine

HP and its spin-off companies support Israel's apartheid policies and are complicit in Israeli human rights abuses. They:

- 1 provide services and technology to the Israeli army and police that maintain Israel's illegal occupation of the West Bank and East Jerusalem since 1967 and the siege of Gaza.
- 2 maintain Israel's central ID system and data base for the Israeli police, used to enforce a system of racial segregation and apartheid against Palestinian citizens of Israel.
- 3 support Israel's colonisation by maintaining information on Israeli citizens in illegal settlements in the occupied Palestinian West Bank.
- 4 operate a research and development centre in the illegal Israeli settlement of Beitar Illit in the occupied West Bank.

We call on HP Inc., Hewlett Packard Enterprise and DXC Technology to cancel all contracts that supply the Israeli state with the means to violate the basic human rights of Palestinians and break international law.

TAKE ACTION

sign the **Don't buy HP pledge**
via <https://tinyurl.com/dontbuyhp>

I/We pledge not to purchase HP products – including laptops, scanners, printers and ink cartridges – and I/we call on retailers, universities, schools, faith communities, community organisations, investment funds, local councils, governments, trade unions, and other institutions to boycott HP products and divest from HP companies until they cancel all contracts that supply Israel with technology, equipment, and information used in its ongoing violations of Palestinians' human rights and international law.
